NOSDA Lexicon of Acronyms for Child Care, Emergency Medical Services, Ontario Works and Social Housing

The **Northern Ontario Service Deliverers Association (NOSDA)** is an incorporated body that brings together Northern Ontario's 11 Municipal Service Managers. All eleven are responsible for the local planning, coordination and delivery of a range of community health and social services that the Province of Ontario divested to them to locally manage. These services represent a significant portion of the social infrastructure of all Northern Ontario's municipalities and also account for a good share of the property taxes that Northern Ontario municipalities dedicate to the social support infrastructure of their municipalities.

The Northern Ontario Service Deliverers Association (NOSDA) works in conjunction with other agencies and associations formed to address the needs of client groups that NOSDA's members address. Each utilizes a variety of acronyms for Child Care, Emergency Medical Services, Ontario Works and Social Housing respectively.

An acronym is meant to be a time saver by forming a word or mnemonic as a memory aid from the initial letters or group of letters of words in a set phrase or proper name. However, there are a lot of acronyms! There has been a serious need for the development of a master list of all these acronyms for greater ease and convenience.

NOSDA has compiled this draft lexicon as a stock of terms that are used in our working lives to help facilitate better communication among DSSABs and other service delivery associations. The benefit of having this lexicon on hand is that every acronym used will be in one convenient location. It is meant to be helpful in ensuring that a mutual understanding can be reached when using a common acronym. It will be particularly useful when orienting new Board Members or staff.

Please provide feedback, and make any additions that you can suggest.
